

**17th Royan International Virtual Congress on
Stem Cell Biology & Technology (4-5 September 2021)**

**Short Oral Presentation
September 5, 2021, 12:00-13:00**

Article no.	Presenter	Title
235	12:00-12:056 Fatemeh Kermani	Towards Cardiac Regeneration: Structural and Functional Maturation of Re-Shaped Induced Pluripotent Stem Cell-Derived Cardiomyocytes
352	12:06-12:12 Shahnaz Babaei-Abraki	N-Acetylcysteine Attenuates Dissociation-Induced Apoptosis in Human Embryonic Stem Cells Through Nrf2 Pathway
450	12:12-12:18 Neda Parvini	Comparison of Cytotoxicity Effect of Activated NK Cells on The GBM Cells In 2D And Neurosphere Culture Models
353	12:18-12:24 Seyed Amir Moradian	In Vitro Production of Mouse Sperm Using an Organ Culture Method in A New Formulated of Culture Medium
428	12:24-12:30 Tayebbeh Rastegar	Crayoprotective Effects of Pentoxifylline on Spermatogonial Cells Following Transplantation into Tourtion Model
464	12:36-12:42 Forouzan Azarafrouz	Interferon Beta Attenuates Tauopathy and Recognition Memory Deficits in A Rat Model of Alzheimer's Disease: Activation of PI3K Signaling Pathway as Underlying Mechanism
398	12:42-12:48 Alireza Afshar	Distribution And Population of Key Cells Responsible for Regeneration in Chronic Kidney Disease
445	12:48-12:54 Amin Tamadon	Non-Obstructive Azoospermia Treatment by Mesenchymal Stromal/Stem Cells: A Non-Randomized, Open-Label Phase I Clinical Trial
